

Skin Care Products

Analyzed For Ingredients That Cause Health Concerns

Ingredient Health Concerns	My Skin Care Has	Lanome	Clinique	Estee Lauder	Mary Kay	Arbonne	Proactiv	Beauty Control	Artistry	Glimpse
AHA Alpha Hydroxy Acids, BHA, Beta							Concern			
Thins the skin										
Alcohol Denatured		Concern	Concern		Concern					
Cancer, developmental & reproductive toxicity										
Alcohol, Isopropyl (SD-40)										
Drying The Skin										
BHT			Concern			Concern				
Neurotoxicity, endocrine disruption, other										
D & C (Coal Tar)				Concern						
Skin irritation & possible carcinogenic										
DEA (diethanolamine)										
Hormone disruptive										
DMDM & Urea (Imidazolidinyl)		Concern		Concern	Concern	Concern	Concern	Concern	Concern	
Damage skin function, thins the skin										
Ethanol (SD-Mixed with Menthol becomes poisonous)					Concern		Concern			
More than 80 gm/day is toxic										
Ethoxydiglycol							Concern			
Hormone disruptive										
FD&C Color Pigments (Coal Tar)				Concern						
Skin irritation & possible carcinogenic										
Fragrances		Concern		Concern	Concern				Concern	
Affects nervous system										
Linalool		Concern							Concern	
May be carcinogenic, mutagenic, toxic										
Liutane or Propane										
Narcotic & asphyxiation										
MEA (Monoethanolamine)										
Can form cancer-causing nitrates										
Micronized Titanium Dioxide			Concern							
Organ system toxicity (non-reproductive)										
Mineral Oil		Concern			Concern					
Premature aging										
Parabens		Concern	Concern		Concern	Concern		Concern	Concern	
Allergies, immunotoxicity, other										
Paraffin		Concern			Concern					
Carcinogenic										
Phenoxyethanol			Concern						Concern	
Allergies, immunotoxicity, other										
Polyethylene Glycol (PEG)		Concern	Concern	Concern	Concern	Concern	Concern	Concern	Concern	
Dries the skin & increases appearance of aging										
Propylene Glycol (PG) and Butylene Glycol		Concern	Concern	Concern	Concern		Concern	Concern	Concern	
Anti-freeze, weakens protein & cell structure										
Sodium Hydroxide (Used in oven and drain cleaners)		Concern							Concern	
Organ system toxicity, neurotoxicity										
Sodium Laureth Sulfate (SLES)							Concern			
Potent class of carcinogens										
Sodium Lauryl Sulfate (SLS)						Concern	Concern			
Can be transformed into nitrosamines										
Talc		Concern								
Lung irritant and other problems										
TEA (triethanolamine)								Concern	Concern	
Restricted in Europe										
Triclosan: Synthetic "antibacterial"		Concern				Concern				
Hormone disruptive
